

-----  
Title: The Third Age Of Darkness

Author: Unknown  
-----

Once Minax was gone,  
peace reigned for twenty  
years. And then the last  
of Mondain's legacy  
became known. For he and  
Minax had together  
produced an unholy  
creation known only as  
Exodus. For many years  
it had stayed hidden,  
patiently gathering  
information to heighten  
its powers. Finally it  
chose to exploit the  
results of its  
diligence. Creating a  
mighty castle to reside  
in, Exodus brought forth  
a third plague of  
monsters, and nowhere in  
Britannia was safe from  
its relentless evil.  
This was the greatest  
challenge yet for our  
hero from another world;  
yet once again the  
Avatar proved  
triumphant. And with the  
defeat of Exodus, a new  
era of prosperity began.
